Education

MERN Full Stack Web developer

Prepleaf by Masai
March 2024-present

High Secondary

BMS Public School
March 2020 - July 2021

Technical Skills

- HTML5
- CSS3
- JavaScript
- React
- Redux
- Responsive Web Design

Soft Skills

- Teamwork
- Problem Solving
- Effective Communication

Krish Arora

Frontend Developer(React)

Professional Summary

Proficient frontend developer specializing in React.js, known for crafting responsive, optimized web applications. Demonstrates exceptional problem-solving and collaboration skills. Expert at leveraging Generative AI for innovative solutions. Quick to adapt to new technologies, ensuring rapid integration and implementation within projects.

Projects

Gemini AI Clone [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- HTML5
- React
- CSS3

- Responsive Web Design
- react-router-dom

- Developed a generative AI application using React.js, showcasing deep understanding of React core principles.
- Implemented an AI-powered chatbot feature to handle natural language processing and respond in real-time.
- Designed a clean and modern user interface, leveraging smooth animations within a responsive design.
- Utilized React Hooks for efficient management of state and components, following software development best practices.
- Integrated frontend components seamlessly with AI's backend API ensuring robust component communication.
